

FIRM CAPABILITIES

The LA Group (a Small Business Enterprise) has a studio of professionals committed full-time to government clients. Our staff includes some of the country's preeminent experts in federal guidelines, including VA requirements for national cemetery and healthcare site design, Department of Interior and US Army Corps of Engineers guidelines, and other industry standards. Professional staff proficient in federal work include landscape architects, civil engineers, planners and environmental specialists. With a multi-disciplinary structure, the firm brings a comprehensive approach and expertise to the following NAICS codes:

541320 Landscape Architecture

- Site Analysis and Feasibility Studies
- Program Development
- Facility Master Planning
- National Cemetery Design
- Healthcare Facility Design
- Military Facility Design
- National Park Design
- National Forest Facility Design
- Schematic Design
- Construction Documents
- Construction Phase Services

541330 Engineering

- Civil Engineering
- Environmental Permitting
- Roadway Design
- Grading and Storm Water Design
- Utility Design

541620 Environmental Consulting

- NEPA Environmental Assessments
- NEPA Environmental Impact Statements
- Wetlands (Sections 10, 104)

For the past 23-years, the LA Group has worked with numerous federal agencies, and has been consistently noted for quality, detailed execution, team approach, and ability to work within deadlines. This level of excellence has allowed us to enjoy long-standing relationships with our clients and collaborators:

Department of Veterans Affairs

- Numerous IDIQ contracts for all regions as both prime and subconsultant
- VHA, NCA and VBA experience nationwide
- 23 years of continuous service
- Over 75 national cemetery projects including 5 design awards

US Army Corps of Engineers

- Facility master planning, design, civil engineering and meeting facilitation
- Baltimore, Norfolk and Fort Worth District experience
- Design of major expansion at Arlington National Cemetery
- Stormwater management plan and implementation at West Point Academy using Low Impact Development technologies

National Park Service (Department of the Interior)

- Completed work on IDIQ contracts both as prime and subconsultant
- Environmental, planning and design experience
- Wayfinding and interpretive exhibit planning

PAST PERFORMANCE

As a testament to the skill and dedication of our Government Studio staff, the LA Group has consistently achieved 'very good' and 'exceptional' performance review ratings from the various government agencies that we have worked with.

"The professionalism and creativity demonstrated on the performance of their contract has exceeded all expectations... This firm has a profound understanding of the design and function of a National Cemetery." - David Martino, VA

"...this firm has exhibited exceptional performance for delivery, completion, timing and content. They are one of my highest performers in this program area for landscape architecture, recreation design, architecture and engineering services." - Melissa Conn, USFS

"The LA Group's experience and exposure to various design and planning scenarios as well as construction techniques, enable them to deliver the best solutions that exactly meet the needs of each situation." - Mary E. Brown, USFS

"Through the design process, the team members provided valuable expertise on all disciplines, offered excellent design options, and responded favorably to all client requirements and demands without compromising design integrity and creativity." - Dann Reilly, VA
